Dedicated Frontend Developer with over 2 years of professional experience at Fleetify.id and valuable internship experience at PT Yoofix Digital Indonesia. Proficient in developing responsive and dynamic web applications using a variety of technologies, including HTML, CSS, JavaScript, React JS, and Next JS. Proven ability to work effectively in team settings, manage projects, and deliver high-quality results. Passionate about exploring new trends and techniques to enhance work quality. Looking for new opportunities to showcase skills and collaborate with other passionate developers.

WORK EXPERIENCE

Frontend Developer   **Apr 2022 - Jun 2024**
PT. Teknologi Integrasi Armada (Fleetify.id)   **Tangerang, Indonesia**

As a Frontend Developer at Fleetify.id, I was responsible for developing and maintaining the web applications to ensure a seamless and responsive user experience. My key responsibilities included:

- Web Application Development: I developed responsive and dynamic web applications using modern web technologies. This involved writing clean, efficient, and maintainable code primarily in CodeIgniter, HTML, CSS, JavaScript, and JQuery.
- Feature Implementation: Worked on key features including invoice and tax invoice, issuing invoices, part and service registration, reimbursements, PO parts, SPK mutations, data updates, and stage fixing.
- UI/UX Implementation: I translated design mockups and wireframes into high-quality code, ensuring that the user interface was visually appealing and user-friendly.
- Collaboration with Backend Developers: I collaborated with backend developers to integrate front-end. This involved working with APIs, handling data fetching, and ensuring smooth communication between the front end and back end.
- Bug Fixing and Debugging: Participated in identifying and resolving bugs, ensuring smooth and efficient application performance.
- Cross-Browser Compatibility: I ensured that web applications were compatible with various browsers and devices. This included performing thorough testing and debugging to resolve any issues related to browser compatibility.
- Responsive Design: I implemented responsive design principles to ensure that web applications were accessible and functional on a variety of devices, including desktops, tablets, and smartphones.
- Version Control and Collaboration: I used version control systems like Git to manage codebase changes and collaborate with other team members effectively. This included participating in code reviews, merging branches, and resolving conflicts.

Frontend Developer - Internship   **Mar 2020 - May 2020**
PT Yoofix Digital Indonesia   **Yogyakarta, Indonesia**

- Web Application Development: Assisted in developing and maintaining responsive web applications using HTML, CSS, Bootstrap and JavaScript.
- Mobile App Development: Developed the Yoofix mobile app using Java in Android Studio, enhancing the mobile user experience and providing additional functionality.
- UI/UX Collaboration: Effectively collaborated with UI/UX designers and other stakeholders to optimize application usability and aesthetic appeal.

PROJECTS

FMS Dashboard

- Developed a comprehensive Fleet Management System Dashboard to enhance the management and tracking of fleet operations. The dashboard provides control over various fleet management activities.
- Technologies Used: CodeIgniter, HTML, CSS, Bootstrap, JavaScript, and jQuery

Yoofix Billboard Dashboard

- Developed the front-end interface for the Yoofix Billboard Dashboard, a web platform dedicated to providing billboard advertisement rental services accessible to advertisers and billboard owners.
- Slicing and Layout: Utilized HTML and CSS to slice the provided design mockups and implement the layout structure. Ensured that the design was accurately translated into a functional web interface.
- Technologies Used: HTML, CSS, Bootstrap, and JavaScript

SKILLS

Tools: Git, Docker, Responsively App, Postman, Jira, Figma, Whimsical, Miro

Methodologies: Agile/Scrum

Skills: JavaScript (Advanced), HTML5 (Advanced), CSS3 (Advanced), jQuery (Advanced), Bootstrap (Advanced), Tailwind CSS (Advanced), Responsive Web Design (Advanced), RESTful APIs (Advanced), UI/UX Design (Intermediate), React JS (Intermediate), Next JS (Intermediate), Typescript (Intermediate), Vue JS (Intermediate), SASS (Basic), Wordpress (Basic)

ORGANIZATIONAL & VOLUNTEER EXPERIENCE

Coordinator of Design Club TI   **Aug 2017 - Aug 2018**
Design Club Teknik Informatika   **Yogyakarta**

In this position, I was responsible for teaching and guiding club members in various design-related projects. My primary responsibilities included:

- Java GUI Application Design: I taught members how to create Java GUI applications using Java Swing in NetBeans. This included lessons on designing user interfaces, implementing functionality, and best practices for software development.
- Mentoring and Support: I provided mentorship and support to club members, helping them with their projects and encouraging them to develop their skills in design and programming.

Coordinator of Multimedia Division   **Jul 2017 - Jun 2018**
Himpunan Mahasiswa Teknik Informatika   **Yogyakarta**

As the Coordinator of the Multimedia Division, I was responsible for overseeing various multimedia-related tasks and projects within the Himpunan Mahasiswa Teknik Informatika. My primary responsibilities included:

- Event Documentation: I ensured that all events organized by the association were thoroughly documented. This involved taking photographs, recording videos, and compiling the materials for future reference and promotional use.
- Social Media Management: I managed the association's social media accounts. This included creating and scheduling posts, engaging with followers, and maintaining an active online presence to promote events and activities.
- Design Creation: I designed visual materials such as posters, banners, and flyers for the association's events and announcements. These designs were crucial in effectively communicating information and attracting participants.

Staff of Equipment Division   **Apr 2017 - May 2017**
Festival UKM Universitas Sanata Dharma   **Yogyakarta**

As a Staff Member of the Equipment Division for the Festival UKM Universitas Sanata Dharma, I was responsible for ensuring the smooth provision and management of equipment and supplies for the event. My primary responsibilities included:

- Lanning Equipment and Supplies: I planned the necessary equipment and supplies needed for the event.
- Listing and Procurement: I listed all required equipment and worked to ensure its procurement.
- Establishing Agreements: I established agreements for borrowing and renting equipment.
- Maintenance and Return: I was responsible for the maintenance and return of event equipment.
- Organization and Distribution: I organized and distributed event supplies.
